Index

KEYWORD INDEX

Keywords	Quarter	Page
3G – *see* Introduction: 3G will reach its targets – *Hurel, J-L.*	1	4
3G mobile systems – *see* Standardization of 3G mobile systems – *Sehier, Ph.; Gabriagues, J-M.; Urie, A.*	1	11
Alcatel Research and Innovation – *see* Alcatel Research and Innovation: mastering continuous innovation and change – *Gregoire, C.*	3	160
Alcatel Space – Alcatel Space: spanning the spectrum of space skills – *Courtois, M.*	4	241
All-optical 3R regeneration – *see* Alcatel–HHI collaboration on all-optical 3R regeneration – *Devaux, F.; Leclerc, O.; Lavigne, B.; Brindel, P.; Nolting, H-P.; Sartorius, B.*	3	231
Astra 1K – *see* Astra 1K – *Poletti-Villanova, F.; Soula, J-L.*	4	254
Beyond 3G – *see* Wireless communications "Beyond 3G" – *Kumar, V.*	1	28
Broadband services – *see* Technologies for broadband services over fiber to the home – *Vetter, P.*	3	215
Darwin mission – *see* Darwin mission preparation – *Lund, G.; Krawczyk, R.; Thomas, E.*	4	296
DSL systems – *see* Next generation DSL systems – *Pollet, T.*	3	212
DWDM devices – *see* Low cost DWDM devices – *Jacquet, J.; Satzke, K.; Riant, I.*	3	181
Earth observation – *see* Earth observation from space: from exploration to operation – *Auternaud, D.; Mauté, P.*	4	285
EGNOS – *see* EGNOS: European satellite navigation system – *de Lédinghen, N.; Auroy, J.*	4	279
Fiber amplifiers – *see* Cladding-pumped erbium-doped fiber amplifiers for WDM applications – *Bayart, D.; Gasca, L.; Gelly, G.*	3	179
GMES – *see* GMES: European initiative for managing the environment and controlling risk – *Chenet, J.; Tarel, G.*	4	291
Ground segment – *see* Ground segment implementation: a global approach – *Richard, G.*	4	@
Imaging systems – *see* Mosaicing techniques for spaceborne optical high resolution imaging systems – *Blanc, P.; Savaria, E.*	4	@
Information security – *see* Information security: threats and protection mechanisms – *Howard, B.; Paridaens, O.; Gamm, B.*	2	117
Integrated management – *see* Integrated management solution for next generation networks – *Collatz, C.; De Groot, T.; Luff, E. J.; Pauthner, G.*	2	148
Internet – *see* Satellite contribution to the Internet – *Blineau, J.; Castellanet, M.; Cheval, P.; Verhulst, D.*	4	243
IP multimedia – *see* Mobile evolution towards full IP multimedia – *Frêne, P.; Rasseneur, D.; Tournassoud, P.*	1	33
IP networking architectures – *see* Securing IP networking architectures – *Paridaens, O.; Gamm, B.; Howard, B.*	2	122
Metropolitan networks – *see* How much optics in future metropolitan networks? – *Jourdan, A.; Tancevski, L.; Pfeiffer, T.*	3	219
Mobile communications – *see* Mobile communications – *Lerouge, C.*	3	196
Mobile Internet market – *see* I-mode: a successful launch of the mobile Internet market – *Keryer, Ph.; Nara, T.*	1	64
Mobile services – *see* Location-based mobile services: the essentials – *Dru, M-A.; Saada, S.*	1	71
Mobile systems – *see* Role of satellites in mobile systems – *Courseille, O.*	4	249
Monitoring – *see* Monitoring of in-orbit spacecraft – *Lanteri, A.; Robert, J-M.*	4	@
Multibeam antenna – *see* High-gain multibeam antenna demonstrator for Ka-band satellites – *Caille, G.; Cailloce, Y.; Demolder, B.; Bekaert, G.*	4	@
Multimedia over IP – *see* Towards an integrated solution for multimedia over IP – *Goderis, D.; De Neve, H.; T'Joens, Y.; De Vriendt, J.; Soetens, T.*	2	97
Network design – *see* Optimal network design of ultra-long-haul transmission networks – *Lardiés, A.; Ester, G.*	2	142
Network performance modeling – *see* Alcatel – INRIA/ENS research collaboration on end-to-end network performance modeling – *Baccelli, F.; De Vleeschauwer, D.; Hong, D.; Petit, G. H.*	3	223
New business models – *see* Next generation networks: enablers for new business models – *Krogfoss, B.; Pirot, J.*	2	91
Next generation architecture – *see* Strategy for migrating voice networks to the next generation architecture – *Uebele, R.; Verhoyen, M.*	2	85
NGN – *see* Editorial: Preparing for tomorrow's services – *Estes, Glenn. H.*	2	82
Onboard demodulator – *see* Onboard demodulator operating on very low level signals for direct access to geostationary satellites – *Morlet, C.*	4	@
Operation and maintenance – Operation and maintenance center for 3G radio access networks – *Rinchet, D.; Tingaud, R.*	3	198
Optical and data layers – *see* Convergence of the optical and data layers – *van Bogaert, J.*	2	135
Optical networks and technologies – *see* Trends and evolution of optical networks and technologies – *Erman, M.*	3	173
Optical packet switching matrix – *see* Optical packet switching matrix: a key system for the next generation of multi-terabit routers/switches for flexible optical networks – *Chiaroni, D.; Renaud, M.; Eilenberger, G.; Masetti, F.; Jourdan, A.; Bonno, P.*	3	183

Optical packet-switching – *see* Progressive introduction of optical packet-switching techniques in WDM networks – *Vandenhoute, M.; Masetti, F.; Jourdan, A.; Chiaroni, D.* 3 216
Optics – *see* Broadband and IP optics – *Ransom, N.* 3 210
Payload architectures – *see* Changing payload architectures and technologies – *Parise, D.; Merour, J-M.; Soulères, E.* 4 259
Plasma propulsion – *see* Electrical effects of plasma propulsion on a geostationary telecommunication satellite – *Brosse, S.* 4 270
Quality of calls – *see* Quality of calls transported over a DSL access network – *Büchli, M. J. C.; De Vleeschauwer, D.; Janssen, J.; Petit, G. H.; Van Moffaert, A.* 2 111
R&D – *see* Alcatel Space R&D – *Pogarieloff, D.; Andrau, M.* 4 302
Radio – *see* Software defined radio – *Rouffet, D.; König, W.* 3 203
Radio access network – *see* UMTS radio access network dimensioning – *Ramzi, H.* 1 55
Radio frequency spectrum – *see* Optimizing and licensing the radio frequency spectrum for terrestrial 3G users – *Evci, C.* 1 19
Real-time voice applications – *see* Dimensioning of NGN transport networks for real-time voice applications – *Van Hoey, G.; Van den Bosch, S.; de la Vallée Poussin, P.; De Neve, H.; Petit, G. H.* 2 105
Research – *see* Alcatel research collaboration with academic institutions – *Magen, J.* 3 222
Research – *see* Editorial: The Practice of Research – *Heilmeier, G. H.* 3 158
Satellite navigation – *see* Satellite navigation and mobility applications: a challenge for Alcatel Space – *Colaitis, O.; Provenzano, J-P.; Aucher, Ph.* 4 275
Scientific programs – *see* Scientific programs: an essential component of Alcatel Space business – *Chenet, J.; Juillet, J-J.; Boschel, J. C.* 4 @
Security features – *see* Security features required in an NGN – *Gamm, B.; Howard, B.; Paridaens, O.* 2 129
Service-enabling platform – *see* Myriad: an application service-enabling platform – *Vanderstraeten, H.* 3 192
Services – *see* Applications and services – *Conchon, A.* 3 187
Simulation and validation – *see* End-to-end performance simulation and validation – *Belmont, J.; Piau, P.* 4 307
SkyBridge – *see* SkyBridge services – *Bertout, A.; Christiansen, G.; Couet, J.; Spencer, P.* 4 @
SLA management – *see* SLA management: a key differentiator for service providers – *Désoblin, G.; Papini, H.* 3 194
Softswitches – *see* SoftCall: a framework for multimedia softswitches – *Jouenne, F.; Couturier, A.* 3 190
Space – Editorial: Space and the information society – *Bensoussan, A.* 4 238
Space antenna design – *see* Space antenna design for complex telecommunication payloads – *Maurel, J.; Lepeltier, Ph.; Pelenc, L.; Trancart, B.* 4 @
Telecommunication satellites – *see* Evolution of geostationary telecommunication satellites – *Bertheux, Ph.; Girard, A.; Trancart, B.* 4 264
Terminals – *see* Third generation terminals – *Rousseau, E.; Sagar, T.* 1 68
Ultra-high-capacity transmission – *see* Road to ultra-high-capacity transmission – *Bigo, S.; Idler, W.; Scavannec, A.; Du Mouza, L.* 3 177
UMTS – *see* Editorial: UMTS: delivering the vision – *Eylert, B.* 1 2
UMTS – *see* UMTS: challenges and perspectives – *Duarte, B.* 1 5
UMTS networks – *see* QoS implementation in UMTS networks – *Baudet, S.; Besset-Bathias, C.; Frêne, P.; Giroux, N.* 1 41
UMTS node B architecture – *see* UMTS node B architecture in a multi-standard environment – *Breyer, S.; Haberland, B. ; Suzuki, E.* 1 50
Venture capital – *see* Venture capital aspects at seed stage zone – *Touboul, S.* 3 168
Venture capital partnership – *see* Alcatel Ventures: a value-added venture capital partnership – *Kim, S.* 3 165
Ventures fund – *see* Early stage ventures fund program – *Goossens, Ph.* 3 163
VIPeR – *see* VIPeR: a flexible software architecture for routers – *Neumann, F.* 3 189
Virtual laboratory – *see* Alcatel – North Carolina State University virtual laboratory for end-to-end quality of service engineering – *Labbe, T.; Mohammed, A.; Streck, J. P.; Vouk, M. A.* 3 227
Wireless access – *see* Broadband fixed wireless access – *Boettle, D.* 3 214
Wireless ad-hoc networking – *see* Enabling technologies for wireless ad-hoc networking – *Kumar, V.; Carrez, Fr.; Riganati, J.* 3 207
Wireless LAN – *see* Wireless LAN technology and HiperLAN/2 – *Brignol, L.; Litzenburger, M.* 3 205
